1. MIDDLETOWN CITY ID CARD (CONTINUED FROM 3-06-18)

(Mayor Destefano has asked that the City look into creating a municipal ID Card for Middletown residents)

At the March meeting we discussed some of the issues involved in creating a municipal ID card, such as how would it be issued, what would it be used for, what proofs of residency and identity would be required, what have other cities done, and so forth.

The most pressing question was why do we want to do this, for what purpose and benefit? This was also asked by Mr. Guertin in regards to writing the enabling legislation. We hope to have some public input on this question, and also discuss some of the costs involved in creating ID cards.
