

We want your opinion!

WHAT'S GOING ON?

Orange County is conducting a study to evaluate the current transit system operated in the Middletown area. We want to better understand the needs of our community and determine where service gaps exist. This information is critical as we redesign our regional transit system to better serve our riders.

WE WANT TO HEAR FROM YOU!

We want to know what you like about the current service. What challenges do you face? How can the service improve? In what ways could you be better served by public transit in the Middletown area?

Orange County will be hosting an in-person public engagement event at the Railroad Avenue Terminal to hear directly from you and gather community feedback.

Stop by! Share your ideas, thoughts, and experiences!
