Gas Compliance Certificate Process

August 30, 2010

- 1) Certificate form will be provided with the O&R application for gas service and will be available from the municipality with their permitting process.
 - 2) Plumber and electrician (if CSST present) complete their part of the form and submit to the municipality.
 - 3) Municipality performs inspection and, if satisfactory, fills in their portion of the form, signs, and stamps with their seal. The municipality then scans or faxes the form to the appropriate O&R New Construction Services (NCS) office (Spring Valley, Blooming Grove, or Middletown). *No gas meters will be installed without a properly completed compliance certificate.*
 - 4) Plumber calls NCS when ready to schedule new meter install.
 - 5) **EXCLUDING** meters set for convenience*: NCS issues the install order and forwards the order and compliance certificate to the Gas Department.
 - 6) For meters set for convenience, NCS will issue a set meter inactive order to the Gas Department **BUT** not the compliance certificate. The plumber must then complete his work and follow the compliance certificate process detailed above. After inspection by the municipality, the plumber must call NCS when the meter is ready to be unlocked (referred to as "pulling the pin"). NCS will forward the compliance certificate to the Gas Department at that time.
 - 7) If the gas meter install (or pulling the pin) is completed, the Gas Department will indicate such on the last section of the compliance certificate and, on a maximum once per month basis, will scan, fax, or mail the successfully completed forms back to the appropriate municipality.
 - 8) If violations are found and the gas meter cannot be set or the pin pulled, the Gas Department will hang a green tag advising the customer of the condition(s) that need correction and will list the O&R phone number to call when corrected. The Gas Department will document on the compliance form the date and reason that the meter was not installed or the pin pulled. Then, no later than the second business day following the failed gas meter install or pin pull, the Gas Department will scan or fax the failed compliance certificate back to the appropriate municipality.
 - 9) Upon successful completion of a previously failed meter installation or pin pull, the Gas Department will complete the compliance re-inspection form, and scan, fax, or mail a copy to the appropriate municipality no later than the next monthly submittal of satisfactory installs.
- * "Meters set for convenience" are generally larger commercial or industrial meters that do not have a meter bar and are put in place by O&R before the downstream piping is installed by the plumber. The meter is installed locked and the plumber pipes to the outlet of the meter. "Pulling the pin" refers to O&R unlocking a meter previously set for convenience after the piping and appliances have been installed.

Affidavit of Exemption to Show Specific Proof of Workers' Compensation Insurance Coverage for a 1, 2, 3 or 4 Family, Owner-occupied Residence

This form cannot be used to waive the workers' compensation rights or obligations of any party.

Under penalty of perjury, I certify that I am the owner of the 1, 2, 3 or 4 family, owner-occupied residence (including condominiums) listed on the building permit that I am applying for, and I am not required to show specific proof of workers' compensation insurance coverage for such residence because (please check the appropriate box):

- I am performing all the work for which the building permit was issued.
- I am not hiring, paying or compensating in any way, the individual(s) that is(are) performing all the work for which the building permit was issued or helping me perform such work.
- I have a homeowners insurance policy that is currently in effect and covers the property listed on the attached building permit AND am hiring or paying individuals a total of less than 40 hours per week (aggregate hours for all paid individuals on the jobsite) for which the building permit was issued.

I also agree to either:

- ◆ acquire appropriate workers' compensation coverage and provide appropriate proof of that coverage on forms approved by the Chair of the NYS Workers' Compensation Board to the government entity issuing the building permit if I need to hire or pay individuals a total of 40 hours or more per week (aggregate hours for all paid individuals on the jobsite) for work indicated on the building permit, or if appropriate, file a CE-200 exemption form; OR
- ◆ have the general contractor, performing the work on the 1, 2, 3 or 4 family, owner-occupied residence (including condominiums) listed on the building permit that I am applying for, provide appropriate proof of workers' compensation coverage or proof of exemption from that coverage on forms approved by the Chair of the NYS Workers' Compensation Board to the government entity issuing the building permit if the project takes a total of 40 hours or more per week (aggregate hours for all paid individuals on the jobsite) for work indicated on the building permit.
